

# Schindler Easy Access Package

Barrier-free mobility for everyone

# Schindler Easy Access Package

## Barrier-free mobility for everyone

Accessibility stands for unrestricted use of objects and equipment, regardless of any possible disability. Our elevators equipped with the Easy Access Package provide accessible mobility for all passengers.

We offer a wide-ranging portfolio of special fixtures and accessories for passengers and visitors with reduced mobility.

This includes easily identifiable large push-buttons and a human voice announcer to help visually impaired and aged people in their orientation.

### Your benefits at a glance

- The mirror in the car enables wheelchair users to detect obstacles
- A human voice announcer helps visually impaired and aged people with their orientation
- Easily identifiable large braille-enabled push-buttons for easy selection of the right floor

#### The package includes:

##### Push-buttons with high contrast

- Easily identifiable large push-buttons with raised symbols and high contrast lettering.

##### Mirror full height

- The elevator is fitted with a full height mirror enabling wheelchair users to detect obstacles when reversing.

##### Fitted handrail

- Handrail is mounted on the wall for improved comfort and safety. It is made from stainless steel to avoid allergic reactions and dust build-up.

##### Voice annunciation

- A voice annunciation system is installed in the car to verbally inform passengers when the car has arrived at a designated floor.
